Pure Magnesium from the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2018-2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) continues to find that Tianjin Magnesium International, Co., Ltd. and Tianjin Magnesium Metal, Co., Ltd. (collectively TMI/TMM) had no shipments of subject merchandise covered by the antidumping duty order on pure magnesium from the People's Republic of China (China) for the period of review (POR) May 1, 2018 through April 30, 2019.

DATES: Applicable [INSERT DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

FOR FURTHER INFORMATION CONTACT: Kyle Clahane, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482-5449.

*Background*

On February 5, 2020, Commerce published the *Preliminary Results* of the administrative review of the antidumping duty order on Pure Magnesium from China for the POR.<sup>1</sup> We invited parties to submit comments on the *Preliminary Results*. No party submitted comments.

Accordingly, the final results remain unchanged from the *Preliminary Results*.

---

<sup>1</sup> See *Pure Magnesium from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2018-2019*, 85 FR 6509 (February 5, 2020) (*Preliminary Results*).

Commerce conducted this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act).

On April 24, 2020, Commerce tolled all deadlines in administrative reviews by 50 days, thereby extending the deadline for these results until July 24, 2020.<sup>2</sup>

### *Scope of the Order*

The product covered by this antidumping duty order is pure magnesium from China, regardless of chemistry, form or size, unless expressly excluded from the scope of the order. Pure magnesium is a metal or alloy containing by weight primarily the element magnesium and produced by decomposing raw materials into magnesium metal. Pure primary magnesium is used primarily as a chemical in the aluminum alloying, desulfurization, and chemical reduction industries. In addition, pure magnesium is used as an input in producing magnesium alloy. Pure magnesium encompasses products (including, but not limited to, butt ends, stubs, crowns and crystals) with the following primary magnesium contents:

(1) Products that contain at least 99.95% primary magnesium, by weight (generally referred to as “ultra pure” magnesium) Magnesium Alloy”<sup>3</sup> and are thus outside the scope of the existing antidumping orders on magnesium from China (generally referred to as “alloy” magnesium).

(2) Products that contain less than 99.95%, but not less than 99.8%, primary magnesium, by weight (generally referred to as “pure” magnesium); and

---

<sup>2</sup> See Memorandum, “Tolling of Deadlines for Antidumping and Countervailing Duty Administrative Reviews in Response to Operational Adjustments Due to COVID-19,” dated April 24, 2020.

<sup>3</sup> The meaning of this term is the same as that used by the American Society for Testing and Materials (ASTM) in its Annual Book for ASTM Standards: Volume 01.02 Aluminum and Magnesium Alloys.

(3) Products that contain 50% or greater, but less than 99.8% primary magnesium, by weight, and that do not conform to ASTM specifications for alloy magnesium (generally referred to as “off-specification pure” magnesium).

“Off-specification pure” magnesium is pure primary magnesium containing magnesium scrap, secondary magnesium, oxidized magnesium or impurities (whether or not intentionally added) that cause the primary magnesium content to fall below 99.8% by weight. It generally does not contain, individually or in combination, 1.5% or more, by weight, of the following alloying elements: Aluminum, manganese, zinc, silicon, thorium, zirconium and rare earths.

Excluded from the scope of the order are alloy primary magnesium (that meets specifications for alloy magnesium), primary magnesium anodes, granular primary magnesium (including turnings, chips and powder) having a maximum physical dimension (i.e., length or diameter) of one inch or less, secondary magnesium (which has pure primary magnesium content of less than 50% by weight), and remelted magnesium whose pure primary magnesium content is less than 50% by weight.

Pure magnesium products covered by the order are currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 8104.11.00, 8104.19.00, 8104.20.00, 8104.30.00, 8104.90.00, 3824.90.11, 3824.90.19 and 9817.00.90. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope is dispositive.

#### *Final Determination of No Shipments*

In the *Preliminary Results*, Commerce determined that TMI/TMM<sup>4</sup> had no shipments of

---

<sup>4</sup> See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 84 FR 33739 (July 15, 2019). In the 2011-2012 administrative review of the order, Commerce collapsed TMM and TMI, and treated the companies as a single entity for purposes of the proceeding. Because there were no changes to the facts which supported that

subject merchandise to the United States during the POR.<sup>5</sup> As we have not received any comments on our preliminary finding, we continue to find that TMI/TMM did not have any shipments of subject merchandise during the POR and intend to issue appropriate instructions that are consistent with our “automatic assessment” clarification, for these final results.<sup>6</sup>

#### *Assessment Rates*

Commerce determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with section 751(a)(2)(C) of the Act and 19 CFR 351.212(b). Commerce intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of this review.

Additionally, for TMI/TMM, the exporters under review, which we determined had no shipments of the subject merchandise during the POR, any suspended entries of subject merchandise from TMI/TMM will be liquidated at the China-wide rate. This is consistent with Commerce’s refinement to its assessment practice in non-market economy cases.<sup>7</sup>

#### *Cash Deposit Requirements*

The following cash deposit requirements will be effective upon publication of these final results of administrative review for shipments of subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) for TMI/TMM, which claimed no shipments, the cash deposit rate will remain unchanged from the rate assigned to TMI/TMM in the most recently

---

decision since that determination was made, we continue to find that these companies are part of a single entity for this administrative review. *See Pure Magnesium from the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2011-2012*, 79 FR 94 (January 2, 2014) and accompanying Issues and Decision Memorandum at Comment 5.

<sup>5</sup> *See Preliminary Results*, 85 FR at 6510.

<sup>6</sup> *See Non-Market Economy Antidumping Proceedings: Assessment of Antidumping Duties*, 76 FR 65694 (October 24, 2011) (Assessment Notice); *see also* “Assessment Rates” section *infra*.

<sup>7</sup> For a full discussion of this practice, *see* Assessment Notice.

completed review of the company; (2) for previously investigated or reviewed Chinese and non-Chinese exporters who are not under review in this segment of the proceeding but who have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the China-wide rate of 111.73 percent;<sup>8</sup> and (4) for all non-Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter(s) that supplied that non-Chinese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

#### *Notification to Importers*

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

#### *Notification Regarding Administrative Protective Orders*

This notice also serves as a reminder to all parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

*Notification to Interested Parties*

This notice is issued and published in accordance with sections 751(a) and 777(i)(1) of the Act, and 19 CFR 351.213(d)(4).

Dated: June 18, 2020.
